MISCELLANEOUS.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

27 N. Eutaw St., Baltimore, Md. Feb. 22, 1883.

GENTS:—Upon the recommendation of a friend I tried BROWN'S IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

ADORAM PHELPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

COAST ITEMS.

Twenty-two new cells will be added to the Oregon State Prison. There are already 38.

The report that stock suffering from blackleg is being slaughtered for the market at Los Angeles is denied.

The renowned swimmer, Paul Boynton, says he is never without a bottle of St. Jacobs Oil, the great pain-cure. It kills pain.

Hardly a day passes but one or more teams pass through Red Bluff with emigrants from either Oregon or Washington Territory.

There is a squaw at Sherman from Grande Ronde, Oregon, who is afflicted with what is pronounced to be genuine Kanaka leprosy.

James Larsen of Gillet, A. T., is under arrest at Phœnix, charged with being concerned in the recent stage robberies in Black Canyon.

A valuable deposit of fire clay was discovered a few days ago on Warm Springs creek, in close proximity to the new town of Anaconda, M. T.

Thomas Sedgewick, a resident of Stockton, aged 89 years, is confined to his bed with a broken arm. He stood on a chair to reach something and fell off.

Grasshoppers have made their appearance in large numbers in portions of Fresno county, but so far no material damage has been reported.

The McCloud river hatchery is situated 22 miles north of the town of Redding, and the Oregon stage line passes daily within 20 yards of the establishment. The nearest white settlement on the north is 100 miles distant.

At Stockton Friday night, G. M. Murray was stabbed in the back in a saloon row. A steamboat man who refuses to give his name is under arrest, charged with being the man who did the cutting.

The plans of the Montana National Bank building at Helena show it to be the most imposing structure yet projected in Montana. The granite, brick and tile work will each be of the handsomest possible design. The cost of the block is estimated at $80,000.

Clifton, Arizona, a small mining camp, is nothing if not lively. Some land troubles culminated last week in A. P. George, an attorney for one of the settlers, being dragged from his home by a party of mine employes, knocked senseless and then covered with a coat of tar and feathers.

The Weaker Sex

Are immensely strengthened by the use of Dr. R. V. Pierce's "Favorite Prescription," which cures all female derangements, and gives tone to the system. Sold by druggists.

Iron in a colorless state and Peruvian bark combined with well known aromatics, make Brown's Iron Bitters the best medicine known.

Hope for Drunkards.

My husband had drunken habits he could not overcome until Parker's Ginger Tonic took away his thirst for stimulants, restored his old energy of mind and nerves, and gave him strength to attend to business.—Cincinnati lady. jy30-1

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Inattability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, High colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

Sheriff's Sale.

In the Seventh Judicial District Court of Nevada, in and for Washoe County.

GEORGE GERTENBACH ET AL., Plaintiffs } vs. J. D. PARKS ET AL., Defendants. }

UNDER AND BY VIRTUE OF AN order of sale and decree of foreclosure issued out of the District Court of the Seventh Judicial District of Nevada on the 23d day of July, A. D., 1883, in the above entitled action, wherein the above named plaintiffs George Gertenbach and Chris. Haller, obtained judgment and decree against J. D. Parks, R. P. Furgerson, admr. of the estate of R. P. Furgerson, deceased, and the Orinda Lee Company, a corporation, defendants, on the 23d day of July, 1883, which said decree is recorded in judgment book C, pages 106 and 107, I am commanded to sell all that part of the northeast quarter of section 18, in Township 19, north Range 18 east M. D. B. & M., which lies on the east side of the Truckee river, and the bed of the river, and the banks on the west side thereof, containing about 80 acres, and known as the "Haller Ranch;" also all the right, title and interest of said J. D. Parks and the estate of R. P. Furgerson deceased, in and to that certain water ditch used for conveying water from the Truckee river to said ranch, being the same property purchased by said Parks & Furgerson from C. Haller and wife on October 3d, 1878, all being and situate in Washoe county, Nevada.

Public notice is hereby given that on

Wednesday, the 15th day of August, 1883,

Between the hours of 9 in the morning and 5 in the afternoon, to-wit, at 12 o'clock (noon) of that day, in front of the Court House of the above Court at Reno, Washoe county, Nevada, I will, in obedience to said order of sale and decree of foreclosure, sell the above described property, or so much thereof as may be necessary to satisfy plaintiffs' judgment, with interest thereon and costs, to the highest and best bidder for gold coin of the United States. J. F. EMMITT, Sheriff.

Reno, Nev, July 24, 1883.

FIFTY YEARS HENCE.

"If the various countries maintain their rate of increase," says Mr. Gosselin, Secretary of Embassy at Berlin, "fifty years hence the United States will have a population of 190,000,000; Russia, approximately, 158,000,000; Germany, 83,000,000; United Kingdom, 63,000,000; Austria-Hungary and Italy both, 44,000,000; France, only 40,000,000. Germany has already in round numbers 7,500,000 more inhabitants than France; but in this reckoning Algeria is not taken into account." "For war purposes however, it is observed that the balance is not so heavily against France, for whereas in Germany there are only 965 males to every 1,000 females, in France there are 991; Germany has, therefore, only 3½ millions of males more than France."

In a recent lecture, Prof. Flower, F. R. S., remarked that the whales of our time are the largest of known creatures, past or present. Instead of living in an age of degeneracy, of physical growth, we are therefore in an age of giants; but it may be at the end of that age, for the whales—like other existing great animals—are fast approaching extinction.

SAN FRANCISCO NEWS.

Consul Bee Talks—Red Men—Munitions of War—The Carson Foot-Prints.

SAN FRANCISCO, August 7.

Chinese Consul Bee in speaking of the smuggling of the Chinese across the British Columbia boundary into Washington Territory, characterizes it as a neatly disguised scheme on the part of white men to divert the attention of the authorities from the opium smuggling, which he is of the opinion is being largely carried in that section.

The eighteenth great Sun session of the Great Council of California of the Improved Order of Red Men, was opened this morning in this city. The attendance is large. At 10 o'clock the Council was called together by Chas. E. Spencer of Sacramento, Grand Sachem, and at once proceeded to business.

Information was received yesterday that for over a year past large shipments of ammunition for the Chinese Government have been secretly made through this port. It is stated that 240,000 rifles and 25,000,000 cartridges have been forwarded from here to Shanghai during the past 18 months; that each steamer leaving for China has on board from 500 to 1,000 bales of heavy cotton duck, used by the Chinese for making soldiers' tents. These and shipments of other materials, show that the Chinese have been quietly preparing for trouble with France.

The Carson foot-prints, about which so much has been said, both in this country and Europe, were last evening, in the Academy of Sciences, pronounced by Dr. Harkness to be nothing more than the footprints of a big-footed man. Dr. Harkness was the one who first promulgated the theory of their being the imprint of some huge quadruped, but a later and more careful examination of the subject has convinced him of his error.

A Railroad Accident.

SAN FRANCISCO, August 7.

An accident on the Southern Pacific railroad, near Lancaster, 76 miles from Los Angeles, has just been reported. It seems the train stopped as usual at Lancaster; the engine and freight cars went ahead to switch, leaving the freight cars on a heavy grade; the brakes gave way, and at Tehachapi, started on down toward the passenger car, filled with people, striking it with such force as to throw every one out of their seats, bruising many. One passenger, Mr. Ryan, is believed to be fatally injured. It is said that the train hands were unfit for work, having been up all the preceding night at a ball in Mojave.

—The National Association of Iron and Steel Workers met at Philadelphia to-day.

—The Western Union complains that their wires are being cut, and offer $1,000 reward for the arrest and conviction of anyone tampering with them.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

THE MAORI DEFEATED.

The Boston Slugger Knocked Him Out in Three Rounds.

NEW YORK, August 6.

The boxing match between John L. Sullivan, of Boston, and Herbert A. Slade the Maori, came off this evening in Madison Square Garden, and resulted in Slade being knocked out in the third round.

The receipts of the affair are thought to be about $16,000 of which the Maori was to get forty per cent.

When time was called the men approached and shook hands. Both had removed their undershirts. Sullivan's flesh looked hard and firm, and he appeared in good condition. Slade looked larger and heavier than Sullivan, but his flesh had a soft appearance. Slade's face wore an anxious appearance, while Sullivan had a contented look.

After cautiously sparring for a few seconds, Sullivan delivered the first blow squarely on Slade's countenance, following it by another on the neck, driving him into his corner. Storms of cheers greeted this performance of Sullivan. The men were soon at close quarters and a rapid exchange of blows took place. A break was called by the referee. They then sparred for an opening, which Sullivan obtained, and he drove the Moori, finally knocking him down. Springing up, the two again clinched, but the Maori soon had enough, running to the ropes, Sullivan assisting in the movement by heavy blows on the back of the head and neck. A well directed blow sent the Maori between the ropes and off the platform head first. The Maori soon regained the platform, and the three minutes expired. While sparring, Slade appeared winded and Sullivan all right.

In the second round Sullivan beat Slade all around the ring, knocking him down twice, Joe Goss shouting to Sullivan: "Hit him in the belly, John. Give it to him in the belly, John." Slade had bellows to mend; Sullivan in fine form.

In the third round Sullivan led off with a terrific right hander square in the face, which staggered Slade. The two clinched, but Sullivan breaking away again, rattled away upon his antagonist, whose replies were weak. The Maori was finally sent sprawling upon the platform. When he lifted his head, blood was pouring from his nostrils, and appeared dazed and unconscious of his surroundings. Sullivan stood over him. Police Inspector Thorne and Captain Williams then rushed on the stage to stop the fight. Slade made their interference unnecessary. He had enough. He was helped to his corner and his gloves removed. Sullivan discarded his gloves and shook hands with Slade. The champion was loudly cheered. The two men then went to their quarters, and were soon dressed and left the garden, followed by the thousands who witnessed the battle.

A Prospective Railroad War.

CHICAGO, August 7.

The conflict between the Union Pacific and the Denver and Rio Grande regarding the California passenger business, is becoming more serious every day, and it is generally believed that an open rate war between the two roads will break out before many days. A few weeks ago the Denver and Rio Grande gave notice that the California passengers over its line would have the privilege of visiting Denver and Leadville, free of charge. This, it was learned, was done in retaliation for the Union Pacific running fast trains between Omaha and Ogden and allowing their passengers to visit Salt Lake City free of extra charge. Now the Union Pacific gets back by announcing that passengers for California over its line will also be accorded the privilege of going to Denver and Leadville, and return free of charge. This action will of course, give the Union Pacific again the advantage, and there is now no other way than for the Denver and Rio Grande to get even but to make large reductions in rates, which, of course will compel other lines to do likewise.

Press Opinions.

NEW YORK, August 7.

The *Times* editorial this morning says it is likely to weaken the Brotherhood to call out the railroad operators; to call them now would savor of compulsion, that as a class they are not inclined of their own motion to leave their instruments. The *Sun* says the Brotherhood's action in calling out the railroad operators is wrong and unjustifiable, says the fact that they have ordered them out amounts to a declaration that the Telegraph strike has failed.

Charley Ford in Trouble.

KANSAS CITY, August 7.

The *Star* last evening prints an interview with Charles Ford, who is now under $5,000 bonds charged with complicity in the Blue Cut train robbery, in which he recounts his connection with the James gang, and the negotiations with the authorities which led to the killing of Jesse James. Ford admits participating in the Blue Cut robbery, but says he joined the gang solely to gain their confidence, with the view of Jesse's capture, and that he returned his share of the plunder to the owners after the robbery. He asserts that the negotiations with the Governor were begun some weeks prior to this, and that the Police Commissioner, Craig of this city, knew of his connection with the robbery and promised that he should be protected in everything. He says his brother Bob made the arrangements with Governor Crittenden, that the Governor promised him a reward of $40,000 if he would bring Jesse James in alive, or $10,000 if dead, and told him if they wanted more men to call upon Commissioner Craig and Sheriff Timberlake. These three officials, Charlie says, assured Bob that if they would bring Jesse in, the authorities would protect them from all harm. After the pardon from the sentence of murder for the killing of Jesse, he and Robert came to Kansas City, and Craig gave them a pair of United States pistols, sent by Governor Crittenden, and told them to consider themselves officers and be prepared for any and all service. Ford's story, as given the reporter, is quite lengthy and highly interesting. In the Recorder's Court yesterday afternoon Charles Ford was fined $200 for carrying a revolver without proper authority. Commissioner Craig and Chief of Police Spears testified that they believed such protection necessary to Ford since the killing of Jesse James, but the Recorder held it insufficient grounds, and the defense gave notice of an appeal.

They Don't Like the Change.

WASHINGTON, August 7.

There is going to be a funny fight in army circles when Sheridan comes to Washington, it is said by War Department men. Schofield, who is now at the head of the Department of the Pacific, and Pope, who is at the head of the Department of Missouri, under Sheridan, will both try to stay where they are. Neither of them want to remove to Chicago. Schofield is one of the biggest men, socially, on the Pacific slope, and Pope is the king bee in Kansas and Missouri. Neither could cut a very wide swarth in Chicago for a very long time, and neither care to go there for that reason. Hancock is out of the fight, apparently nobody showing a disposition to disturb him. Sheridan will not come here until the 1st of October, but the fight against a removal to Chicago will begin several weeks before that date. Entering upon another branch of the subject, the War Department man said that the carpet knights who have been attached to Sherman, and who have been stationed here for several years, are greatly disturbed, by reason of the impending change. Several of them have been in Washington for years drawing Colonel's pay, when, in fact, they are Captains, and they dislike very much to go back to their regiments. They are social stars here, and draw $5,000 a year, and they do not contemplate with equanimity the reduction to $1,800 and banishment to the frontier. Sheridan will probably bring his staff from Chicago.

A Cholera Scene.

CHICAGO, August 6.

There was a sensation on West Lake street to-day. Seven persons in a boarding-house, at No. 61, ate of ice-cream, watermelon, green peas and roast veal, and were all seized with violent cramps. The report got abroad that it was the cholera, and a general stampede from the neighborhood resulted. The Health Commissioners examined the premises, which were pronounced in a good sanitary condition, and gave the opinion that the sickness is a very severe case of unanimous stomach ache, the result of eating one of the articles mentioned, which one is not known.

The New License Law in Chicago.

CHICAGO, August 7.

The Citizens' League began *quo warranto* proceedings yesterday against J. B. Drake, proprietor of the Grand Pacific Hotel, to test the validity of the ordnance passed by the Council a few days before the State license law went into effect, fixing the price of saloon license at $100 instead of $500, as prescribed by the State law. This is done to bring the matter to a speedy issue. The saloon keepers thus far have been fighting for delay.

Good for the People.

CHICAGO, Aug. 7.

The Chicago & Alton railroad have given notice of a withdrawal from the Chicago and St. Louis freight pools. This action is the result of the recent cut in passenger rates, and seems to portend a general passenger and freight war between the points named.

—The City Council of Chicago passed a resolution last night in sympathy with the striking telegraphers and held that the strike should be brought to an end speedily, on account of the damage to business, resulting from the continuance.

—Superintendent King of the Baltimore and Ohio Railroad, reports that one-third of the operatives on that road quit to-day at 2 o'clock.

At the Target.

This morning's Carson *Index* gives the score made by members of the Carson Guard team on Sunday. The best score made in Sunday's competition for places in the Nevada State team were; Cowing 91, Heritage 91, Burke 90, King 90, Crawford 90, Fraser 90, Hark 88, Alley 87, Thaxter 86, Lord 86. Total 889.

TUESDAY.....AUGUST, 7, 1883

JOTTINGS.

Five cars of emigrants went west this morning.

R. V. Borden is plastering the wing of the old school-house.

Ladies purses at Nasby's. Thermometer ot 7, 9, 11, 1, 3—69, 78, 82, 83, 85.

Nine bars of bullion from the Northern Belle went below per Wells-Fargo to-day.

Three carloads of redwood telegraph poles from Watsonville, Cal., went south to-day consigned to the Western Union at Bishop Creek.

It was Manuel Simmons, instead of Dr. Hogan, who got the first water on the fire at Walker's house Sunday evening; the Doc. was on hand soon after and rendered stalwart assistance.

Henry Ruhe of this place received a letter this morning from his daughter, at Modesta, Cal., that her husband, Peter Dalton, is dying; the doctors say there is no hope for him. The Daltons are keeping a restaurant at Modesta.

It is safe to say that the firm of Knowles & Bainbridge, on Commercial Row, is selling more ranges, stoves, agate and tinware than any other four firms on this side of the mountains. To those who have been paying the old prices, their rates is a surprise.

There was enough goods unloaded at the store of A. Lindley & Co. yesterday to run an ordinary country grocery store for six months, and not a second-class article in the lot. Their corps of book-keepers and clerks are all good-looking, attentive, polite and thoroughly understand what they are being paid to do.

The dry goods firm of Levy & Bro., on Virginia street has taken the contract to keep the ladies of Reno and the adjoining country better dressed than any to be found this side of the Sierras. Their carefully selected stock is being sold at such a low rate there is no longer any excuse for appearing in indifferent apparel.

PERSONALS.

C. Derby and W. H. Smith went to California to-day.

Hon. C. C. Stevenson and wife were at the Depot Hotel last evening.

State Surveyor-General Preble and family went to San Francisco to-day.

United States Marshall Corbett came down from the Comstock last evening.

Mrs. W. M. Havenor and two boys went to Wadsworth this morning on a visit.

Ex-Congressman Wren of Eureka was a passenger for the Bay on this morning's express.

T. J. Glasscock called on the GAZETTE this morning. He is an old resident of Lassen county.

Ex-Senator D. W. Perley, of White Pine, but now a resident or Salt Lake, passed east to-day.

Dr. Volney Spaulding, an old-time Comstocker, came from below and left by the V. & T. this morning.

Captain D. H. Barker and family, accompanied by Miss Minnie Gibbs, took the west-bound train for California to-day.

Sam Clay, an old time Humboldter, was in town yesterday and returned to his home on the Humboldt Meadows to-day.

John H. Mills, Superintendent of the State Orphans' Home, was a passenger for the west on this morning's express.

Mrs. J. C. Hampton and son of Virginia City, who have been visiting friends in Reno, returned home this morning.

James R. King, Master of Transportation of the V. & T. R. R., has tendered his resignation, to take place this month. He intends to embark in business for himself somewhere in the northern country.

Degree Lodge.

There will be a regular meeting of Ridgely Degree Lodge, No. 2, I. O. O. F., this evening. Installation of officers. Please attend.

F. C. UPDIKE, Sec'ty.

A FORTUNE IN LAND

A Nevada Cattle Range and Grain Ranch.

THE NATURAL HOME FOR STOCK

What Intelligent Stock Men Think of Clover Valley Ranch.

Like all other mountain scenery, the Clover Valley ranch must be seen to be appreciated. It shows a great variety of landscape, from the stately sweeps of the Humboldt river, across the wide meadows of tall swinging grasses, over wide stretches of sage brush up to steep mountain ranges, surmounted with fine table-lands covered with juicy bunch grass. A journey through it would be a delightful surprise to passengers on the overland trains, who think the barren strip they see from the car windows gives a correct idea of Nevada. A very intelligent writer in the *Breeder and Sportsman* gives a good description of the place recently. It is divided into three great ranches, known as the River ranch, the Home ranch and the Upper ranch, and between each two and away north to Oregon and Idaho, stretch sage and mountain lands, which, under the childish land policy of the Government, will never be taken up, and are controlled by the patches covering the water rights, which Evans now owns.

THE RIVER RANCH

Is a big stretch of land lying on either side of the Humboldt river, from Stone House to Golconda, 25 miles, and below the flat meadows watered by the smaller streams. On this ranch can be cut an enormous quantity of hay easily accessible to the railroad, which runs almost through it. The grasses on this ranch include vine leaf clover, red clover and blue joint, all remarkably fattening feed, which impart a good flavor to the beef. Along the banks of the river Evans & Pratt have a lot of feed corrals arranged on convenient bends. To these places cattle can be driven and fed while awaiting cars for shipment at the railroad, two or three miles distant. At Iron Point, the nearest railroad station, Evans & Pratt have erected a large shipping corral for the use of the ranch, sufficient to hold 30 car loads of cattle at one time.

AT THE HOME RANCH

Rather less than 1,000 acres were in condition to cut for hay, but that amount was in prime order and would yield over a ton and a quarter of clover hay per acre. Several thousand acres of the land was so flooded with water that it was impossible to cut the hay, which was rather too rank to make first-class feed. The springs, which supply water to other parts of the ranch, seem to be almost unlimited in quantity, and were a reservoir built which would raise them up so that some land now above the water level could be reached, fully 2,500 acres of land in this part of the ranch could be made to produce any kind of crop. There was no appearance of alkili in this part of the land, and in fact the white patches of the whole ranch do no not exceed five acres in extent. Surrounding the meadow land is a vast tract of white sage, grease wood and rye grass. This constitutes the Winter range of the Clover Valley ranch. Of this rather more than 28,000 acres is fenced with a three-row barbed wire fence, fastened to railroad ties and strong spruce poles, making a fence positively impregnable. This by no means includes all of the Winter range, but only such portion as it is desirous to keep clear of stock at certain seasons. The advantage of this fine sweep of meadow land, capable of raising 7,000 tons of hay per annum, and the vast Winter range of browse, will at once be apparent to men acquainted with the details and risks of the cattle business. It is this that makes the ranch of special value, and stamps it as the best property in Nevada. The trouble in the cattle business has always been to secure Winter feed for cattle when the hill ranges are snowed in. Hill ranges are plentiful all through the west and northwest, and all the losses in the cattle business have been made through lack of Winter feed. There can be no fear of Winter loss on the Clover ranch, so the business is here cleared of its most speculative element.

Clover Valley creek comes into this ranch from the west and Evans creek on the north. On Clover creek fine grain and potatoes grow well. There are several fine opportunities for reservoirs that would save water enough to farm thousands of acres of land. At present much of the water goes to waste in the Winter time, and is, in fact, a positive injury, for it floods the already well-watered low lands. The creek affords good trout fishing, and the land around teems with grouse, quail, sage-hens and other small game. With such a body of water and the vast extent of dry land of the best quality of soil belonging to the ranch, there is no limit to the possibilities of production, a fact which is evidenced by the great success that has attended all attempts at reclamation and cultivation. On the way to the Summer range lies

THE UPPER RANCH.

This includes a fine orchard, 400 acres of wheat, oats, barley and alfalfa under fence, and some 2,000 acres of agricultural land, which only needs water to produce unlimited crops. And the water is there too, all waiting for a little ditching to be ready for use. A big creek known as Evans creek springs from the side of the left hand range of hills at an elevation of about 400 feet, and discharges an enormous body of water into the valley. A finer field of barley could not be found in California, and for Nevada it is simply wonderful. It will thrash out fully 55 bushels to the acre, and there is hardly a poor or thin spot in it. The grain was headed finely, the kernel is plump and full and will weigh heavily. The wheat is in equally fine condition, and will thrash out over 45 bushels to the acre. The straw is long but not tough, the heads are large and full and the kernels white and plump. A lot of timothy grass also grows luxriantly on this part of the ranch.

THE SUMMER RANGE

is a perfect paradise for cattle and horses. After a hard climb of two hours through a gorge inaccessible to everything except cattle and Nevada cattle horses, a series of elevated table lands are reached far up in the snow line. Between every plateau trickled ice-cold mountain streams, large and small, easily reached by cattle, and all of which are owned by Evans & Co. Some of those streams are lost in subterranean watercourses and go to feed the springs on the low lands. Others, like the Little Humboldt and Evans creek, wind for miles around hills and gorges and either form meadow land or go to swell the volume of the Humboldt river. The hills and table lands furnish a luxuriant growth of fattening nutritious feed hard to imagine. Four kinds of bunch grass, milk-weed and sunflowers grow girth high to a cattle horse, and towering above all, the height of a man on horseback, is the rye grass, the top of which furnishes good feed. So close and dense is the growth that an acre of it would support a steer for three months. On this range over 40,000 head of stock could fatten until the snow-fall drove them to the valley land below. The hills are all unnamed, so it is hard to describe them. On one great hillside where rises the Little Humboldt is a forest of good-sized trees, cottonwood predominating. This forest is over 250 acres in extent. These trees grow quickly and furnish good material for fence posts, corrals, etc. Amid the hills several corrals have been built to assist the cattle men in rounding up, a job always done in sections on this vast range. In seasons when the snowfall is light, cattle need not leave these hills at all. They can graze on the tops of the herbage that appear above the snow. When the snow melts and the cattle by instinct come up from the Winter browse on the low land the nutritious bunch grass is the first to appear, and it is not until the Summer is well advanced that all of the various kinds of grasses have done growing."

A. O. U. W.

Special Session of the Grand Lodge at Gold Hill.

A special session of the Grand Lodge of Nevada A. O. U. W. was held in Gold Hill on Friday the 3d inst.

A constitutional quorum was present. The Grand Master Workman, J. W. Kinsley, announced that he had convened this session for the purpose of securing the necessary power and authority for the Grand Lodge officers and Grand Finance Committee to make application to the Supreme Lodge for a separate Beneficiary Jurisdiction in the near future.

The said authority was unanimously granted.

The Representatives refused to receive any pecuniary compensation for their attendance at said special session. From reports received by the Grand Master Workman and Grand Recorder, the number of members in this jurisdiction was ascertained to be 1992, thus lacking but a small number of the membership requisite for the status of a separate Beneficiary Jurisdiction.

This rapid increase—nearly 500 inside of 90 days—is unprecedented in the annals of the order and it is predicted by well informed members of this fraternity that further additions will continue to be made, so that we shall soon have the pleasure of knowing not only that Nevada has become a separate jurisdiction, but that she is such with a very fair working surplus of members.

A Good Vein of Water

The *Index* says there is a broad underground stream at the depth of about 22 feet in that locality, flowing directly from the mountains in the direction of Carson. No purer or colder water known in these regions. Doubtless the same stream flows to Carson, but at a much greater depth. S. A. Nevers has two wells on it half a mile west of town.

COUNTY COMMISSIONERS.

Proceedings of the Board at the Last Meeting.

The Board of County Commissioners met yesterday and transacted the following business, the full Board being present—R. S. Osborn, Clerk, and John F. Alexander, District Attorney:

The resignation of M. St. John, Constable of Verdi, was accepted.

The monthly reports of the several county officers were received and filed.

The bonds of Geo. D. Winters, road supervisor of Buffalo Springs road district, and D. Felton of the Franktown road district, were approved.

Ordered, that S. M. Place be appointed road supervisor of West Franktown road district.

Ordered, that the County Clerk confer with the Commissioners of Humboldt and Churchill counties relative to a survey of the lines between the counties of Washoe, Humboldt and Churchill.

One hundred dollars was appropriated towards defraying the expenses of a State Teachers' Institute, to be held in Reno during the present month.

Ordered, that John Devoy be awarded the contract for grading 75 rods of road between the ranch of John Boynton and Glendale at $5 per rod; Devoy to have the old plank on the Verdi bridge for $2 50.

The Board met as a Board of Examiners and counted the money in the County Treasury and found $13,825 95.

After allowing the following bills the Board adjourned:

Callender's Minstrels.

The Virginia *Enterprise* of this morning says that Callender's Minstrels can claim the credit of being the first and only company that ever completely packed Coopers Hall, the audience going away delighted with the evening's entertainment. The manager has reason to feel proud of his organization, and the talent of the company will commaud honest success wherever and whenever it is presented to an intelligent and music loving audience. This company of unexcelled artists will show in the Nevada Theater, to-morrow evening, the 8th inst.

The Big Circus.

When the newspapers speak well of a show after it leaves, it is a pretty good sign that it has performed all that it has advertised. The GAZETTE has seen no ill-natured remarks in any paper where the big show of John Robinson has been, showing that complete satisfaction was given. This grand combination will set up their tents in Reno next Thursday, the 9th.

THE CRACKER INDUSTRY.

How it is Carried on in Reno—Important Improvements Going on

It has been well said that one-half the world does not know how the other half lives. It might almost be said that we do not know how we live ourselves. A great many things go to sustain us, o which our knowledge is very slight. So simple a thing as the crackers that are broken into soup at dinner, go through processes and are manipulated by machines of quite an interesting character. Otto Hartung has quite a display of machinery in his factory, on Virginia street. His first step in the operation is to mix the dough, for which he has two large troughs, one 2½x16 feet that will hold six barrels of flour, and another 2x11 feet, holding three barrels. The dough has been made wet and heavy, but when the crackers are baked they weigh almost exactly what the dry flour did. About 25 pounds of the dough are put on a board platform in the corner of the shop, and it is crushed and kneaded by the jumping brake, a heavy lever eight feet long, with a man at the end. It goes to the roller brake next, where it passes and repasses dozens of times between two iron cylinders half an inch or so apart. When it has got as hard and as tough as a piece of felt it is ready for the cutting machine, which looks considerably like a printing press.

THE SHEET OF DOUGH

Drops through between two rollers and onto a canvas belt 24 feet long which carries it under the dies, where it is stamped into sodas, butter, or whatever is wanted. A large wooden scoop is used to lift the crackers off the canvas and lay them evenly on wire pans. They go into an oven 12x14 feet, that is heated up by a fire built on the floor. It takes three-quarters of an hour to heat it up, and the fire is then raked out, the floor washed and the bread or crackers go in. Soda crackers are laid on the bare oven floor to bake. All other kinds have pans of wire or sheet iron under them. Hartung is making three barrels of flour a day into crackers and a barrel into bread. He cannot supply the demand yet, and is putting up a steam engine and a mechanical reel oven, that has pans running on wheels. He will be able to do three times the present work when it is finished.

A Live Man in a Live Town.

Truckee proposes to spread herself to-morrow on the strength of the opening of the new Sherritt House, which will be celebrated by a big dinner and a grand ball. Truckee is a good hotel town, having good houses, good landlords and a large proportion of local as well as transient patronage. Tourist travel, the lumber business and the trade with Sierra and other valleys keeps the town buzzing with life all the year round. Mr. Sherritt may well be proud of his house, and it will be a surprise to strangers to see so fine a one in so small a town.

A Remarkable Growth.

Heister Stevens, whose ranch is located below the Insane Asylum, informs a GAZETTE reporter that a piece of alfalfa on his place which was sown this year has attained an average growth of nearly three feet. Mr. Stevens, in seeding alfalfa, uses nearly double the quantity usually sown and the result is the stalk does not grow so large and stands up better.

A Peerless Perfume.

The refreshing aroma of Floreston Cologne, and its lasting fragrance make it a peerless perfume for the toilet. jy30-1m

Picnic.

The Congregational Sabbath School will hold their annual picnic at the "Riverside Grounds" (Mr. Poor's ranch) Saturday, August 11. The public are cordially invited to attend and make it a grand success. Admission to the grounds free. Refreshments will be served to those who desire, by members of the Sabbath School.

RANCH FOR SALE.

A RARE CHANCE
—FOR A—
LARGE INVESTMENT.

One Hundred and Six Thousand Acres.

THE WELL-KNOWN AND VALUABLE

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE!

4,000 Head of Graded Cattle.

84 Head American Horses, including 50 Fine American Brood Mares 6,000 Acres Fine Meadow Land, Capable of Producing

5,000 TONS of HAY per ANNUM

240 ACRES IN ALFALFA, WELL IRrigated, producing five tons per Acre. 28,000 acres under fence.

MOWERS, REAPERS, FARMING IMPLEMENTS.

With all the appliances of a stock and grain farm to be included in the sale.

The Whole Ranch Comprising One Hundred and Six Thousand Acres.

CONTROLLING TWO HUNDRED AND FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR, as it is sometimes known, "The Iron Point Stock and Grain Ranch," Nevada, embracing one hundred and six thousand acres of land, is now offered for sale upon terms which represent a liberal concession to the purchaser, and offers high inducements in the way of a safe, permanent and profitable investment.

With this ranch will be sold four thousand head of stock cattle, now in splendid condition, embracing thoroughbred Durham bulls, purchased at a cost of six hundred dollars each. The entire herd is composed of grades produced by crossing the best American cows with the very best thoroughbred Durham bulls ever imported to this country. There are no inferior animals in the herd; no Spanish cattle or crosses from Spanish cattle. These ranches embrace six thousand acres of meadow land, which will produce about five thousand tons of hay per annum. There are two hundred and forty acres of fine alfalfa under irrigation, capable of producing twelve hundred and forty tons of hay per annum. Twenty-eight thousand acres of this ranch is now under fence, redwood posts set sixteen feet apart, with four barbed wires, nearly new. Buildings attached to the ranch consist of one good one story and a half house, with four rooms, a stone cellar, and stone dairy house, well built. Horse barn forty by one hundred feet, with stalls for thirty horses. There is a splendid creek of living water running through the ranch; also, an excellent well of water with two or three springs. Inside the inclosure there are two springs from which issue about twenty-five hundred inches of water, sufficient to irrigate twenty-five hundred acres of land which lie below them, and which may be subjected to irrigation at but little cost. Included in this sale there are two thousand acres of fine agricultural and meadow land, about seven miles northeast of the ranch buildings, upon which there are one hundred and twenty acres in alfalfa finely growing. This is a fine grain ranch, and will produce forty to fifty bushels of barley per acre per annum. There is a good orchard in bearing, and a live stream of water affording abundance of trout. About four hundred acres of this small ranch is under fence. The vendors of these ranches own and control the water rights indispensable to the use of two hundred and fifty thousand acres of land for grazing. There is sufficient water to irrigate twenty-four thousand acres in the lower ranch, and one thousand in the upper, making a total of thirty-four hundred acres.

The sale will include eighty-four head of good American horses, fifty of which are large fine brood mares, the remainder being saddle horses, well trained for herding cattle and all kinds of work. Horses taken there will be included in this sale grain headers, eight mowing machines, harrows and all farming implements necessary to run this ranch.

Six years ago this ranch maintained throughout the year about forty thousand head of cattle. The range was injured by being overstocked, and the stock was sold, the owner of this ranch selling twelve thousand head. After a rest of six years the range was recuperated and is now as good as when in its primitive condition. The four thousand head of cattle now offered for sale are the progeny of well-selected cows from the best dairy herds in California and Nevada. They have increased to their present numbers very rapidly. Eight hundred calves will be produced in 1883, and estimating upon the basis of the past experience of increase the band of 1884 will exceed that number by one-half. The range is capable of supporting, without being overstocked, twenty-five thousand head, and the present herd may be increased to that number without seeking other range than that now proposed to be sold.

The Clover Valley ranges embrace:—Township 36 north, ranges 41, 42, 43, 44 east; township 37 north, ranges 42, 43, 44 east; township 38 north, ranges 43, 44 east; township 39 north, range 43 east—Mount Diablo meridian.

Title based upon patents from the United States will be given to one hundred and six thousand acres of land, commanding about one hundred fifty thousand additional acres, to which the ownership of the land now offered for sale is a perfect key. The present value of the property is estimated to be worth four hundred and twenty-eight thousand dollars. The whole is offered for three hundred thousand dollars, of which one hundred and seventy-five thousand dollars must be paid in cash, one hundred and twenty-five thousand dollars in five years. Deferred payments to bear seven per cent. interest per annum.

The cattle and horses will be sold by actual count. If the herd fall short of four thousand head of cattle, or eighty-four head of horses, a pro rata amount for the shortage will be deducted from the total purchase price.

Reference is had to ALVARO EVANS, capitalist, of Reno, and R. L. FULTON, Reno GAZETTE, Reno, for verification of these presentation set forth above. Inspection of the stock, lands and other property is solicited.

Apply to or address,

DR. LIEBIG

Dispensary Cor. Geary and Mason Sts., San Francisco, Cal.

THE COLLEGIATE INstitute for the cure of special diseases and so-called incurable chronic diseases. Dr. Liebig's German Invigorator is positively guaranteed to cure nervous and physical debility, **Seminal Weakness, Lost Manhood, Spermatorrhœa, Loss of Energy, Ringing and Dizziness in the Head, Melancholia, Hopeless Feelings, Prostatorrhœa,** and all the results of youthful imprudence and excesses of mature years. The Decoer, a regular college physician from Europe, will agree to forfeit **one thousand dollars** for a case the Invigorator will not cure under special treatment and advice.

The reason so many cannot get cured of Weakness and the above diseases is owing to a complication called PROSTATORRHŒA, which requires peculiar treatment.

Dr. Liebig's Invigorator No. 3 is the only positive cure for Prostatorrhœa. Price of either Invigorator, $2 per bottle; six for $10. Sent to any address on receipt of price, or C. O. D. Responsible persons can pay when cured. Strictest Secrecy Maintained. Patients cured at home. Dr. Liebig's Dispensary has an Elegant Drug Store in its building.

Too frequent evacuations of the Bladder and Ropy Sediment in urine are symptoms of Secondary Seminal Weakness and Prostatorrhœa. Complaints readily yield to the DR. LIEBIG TREATMENT.

Ordinary Cases—Any recent case of special or private disease cured for $10. Remedies sufficient to cure will be promptly sent, with full directions and advice, on receipt of $10. All packages are securely covered from observation.

Invigorator Samples Free.

To prove the wonderful power of the GREAT GERMAN INVIGORATOR a $2 bottle of either number will be sent free of charge. Persons ordering a free bottle will only have to pay expressage on delivery.

Most Powerful Electric Belts Free to Patients. Consultation, Examination and advice free and private. Call or write.

MISCELLANEOUS.

IN A STILL HOUR

Two Learned Men have a Talk and Come to a Common Conclusion.

"There can be no question as to that," said Dr. P——, who is prominently connected with a certain hospital, to his friend, the House Surgeon, as the two sat having a smoke and a quiet chat in the reception room late on a recent stormy night—"no question at all." Ever since I began practice in that little country village you've heard me speak of, away up near Lake Ontario, 30 years ago, I have felt—in common with all other physicians—the need of a reliable plaster. There are so many diseases—if, indeed, the majority do not come under the rule—for which a good external application is better than remedies poured into a patient's stomach.

"That's so, Doctor, and to show you my faith in your theory, I may say that since I have held my position here, I have opposed the idea of dosing people, except in cases when we were at our wit's end and it seemed to be that or nothing. Some soothing application, if the patient needs anything, combined with rest and good nursing, will do the business—save where cases of accidents require heroic treatment."

"I say, Doctor, said the other, you can speak of it or not, just as you like, but in my private practice, when I want anything of the sort, I use BENSON'S CAPCINE POROUS PLASTER. It's a propriety thing, of course, but it is by all odds the best plaster I have come across. It is scientifically prepared, quick in taking hold, sure to relieve where relief is possible and neat as wax to handle. It is just the perfect flower of all that has ever been done in that line. I happen to know, too, that it is being rapidly introduced in the principal hospital of London, Paris, and other leading cities in Europe."

"You needn't fret, my friend," laughed the House Surgeon, "over the act of being caught in an act of professional heterodoxy, for we use Benson's here every day, and so they at the other city hospitals. We find it so much better than liniments, lotions, &c., that the bottles are actually getting scarce in the house."

Benson's plasters are prepared from an improved formula by distinguished physicians and chemists to meet a want felt for years. You will not be disappointed in them. In the middle of the genuine is CUT the word CAPCINE. Price 25 cents. Seabury & Johnson, New York.

BUTTER COOLING JAR.

BURDOCK'S
PATENT REFRIGERATOR
—FOR—
Keeping Butter Without Ice.

B. N. BUGBEY,

320, J STREET, SACRAMENTO,

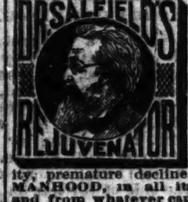
SOLE PROPRIETOR

OF THE UNITED STATES.

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

MISCELLANEOUS.

THIS GREAT
Strengthening Remedy and Nerve Tonic



Is the legitimate result of over 20 years of practical experience, and CURES WITH UNFAILING CERTAINTY Nervous and physical debility seminal weakness, spermatorrhœa, prostatorrhœa, impotency exhausted vitality, premature decline and LOSS OF MANHOOD, in all its complications, and from whatever cause produced. Treat all Chronic and Special Disease

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars. Call or address
